Overview

We are actively seeking 1-3 acre (0.4-1.2 ha) sites suitable for light industrial development. Larger sites may be considered. Likewise, part purchase of a larger scheme may also be of interest.

Any opportunity must be unrestricted and freehold

Land Type

All types will be considered. We can quickly and efficiently progress straight forward, uncomplicated sites whilst also having the expertise to unlock more complex sites.

We have extensive experience in the redevelopment and rejuvenation of derelict and disused brownfield land. This includes demolition, decontamination and clearance of land. For example, disused petrol stations, derelict light industrial sites, and sales forecots would all be considered.
